1 Introduction

- 1.1 This document details how the council will obtain assurance regarding the extent to which the council is adhering to its commitment to good governance as set out in the adopted Local Code of Governance.

2 What is Governance?

- 2.1 The council is committed to ensuring good governance principles and management practices are adopted in all business activities to ensure public trust. Governance is a term used to describe the arrangements, including political, economic, social, environmental, administrative systems, policies and processes, legal and other arrangements put in place, to ensure that the intended outcomes for stakeholders are defined and achieved.

3 What is an Assurance Framework?

- 3.1 Assurance is defined as an “objective examination of evidence for the purpose of providing an independent assessment on governance, risk management and control processes for the organisation”. An assurance framework is a structured means of identifying and mapping the main sources of assurance in an organisation, and co-ordinating them to best effect.
- 3.2 There are many mechanisms within the council that can help to provide information on how well the organisation is performing and how its governance arrangements are managed. An assurance framework is a good way of managing this in a structured, visible format, ensuring that the different assurance mechanisms are focused to provide the best results, in a proportionate and effective manner.

Benefits

- 3.3 There are significant benefits in developing and maintaining an assurance framework:
- It provides an opportunity to identify gaps in assurance needs that are vital to the council and to consider the most appropriate way to manage these; including the use of Internal Audit;
 - It provides timely and reliable information on the effectiveness of the management of the council's Governance arrangements;
 - It facilitates the escalation of issues requiring visibility and attention by Senior Management;
 - It can raise organisational understanding of governance and strengthen accountability and clarity of ownership, avoiding duplication and overlap;
 - It clarifies, rationalises, and consolidates assurance inputs;
 - It provides for a better use of assurance skills and resources; and
 - It provides critical supporting evidence for the production of the Annual Governance Statement.

4 Sources of Assurance

4.1 The council has adopted the “The Three Lines Model” with assurances being taken from one or more of the three sources below:

Source of Assurance	Assurance Given
<p>First line role:</p> <p>Individual Service’s Leadership and Management</p> <p>Management in services have the day to day responsibility for managing and controlling activities and are accountable for successful delivery. They are responsible for adherence to internal controls and agreed policies and procedures.</p> <p>Service Management (including Directors) are the 1st line of defence and as such, are required to take overall responsibility for delivering their services in line with the Local Code of Governance.</p> <p>Service Management (including Directors) are not required to provide a positive formal assurance on each of the elements contained within the Assurance Framework but are required to escalate key governance concerns or weaknesses, as they occur.</p>	<p>It will be assumed that Service Management comply with the requirements of the Assurance Framework, unless any concerns or weaknesses have been escalated by themselves or identified by the Corporate Oversight Function (please refer to 2nd line)</p> <p>Where concerns are escalated Managers/ Directors are required to identify actions they will be taking or support required to increase the level of assurance.</p>
<p>Second line role:</p> <p>Corporate Oversight Functions</p> <p>This assurance is separate from those responsible for front line delivery.</p> <p>Corporate Assurers are responsible for developing and defining governance processes. There are three elements to corporate assurance:</p>	<p>A ‘Fully’, ‘Partially’, ‘Limited’, ‘No’ assurance’ rating indicates the level of assurance given. Assurance may be requested at one or both levels as follows:</p> <p>Element 1 = Corporate process in place.</p> <ul style="list-style-type: none"> Fully Compliant = Corporate Oversight Function can give substantial assurance that policies and processes have been put in place, cover the requirements of the Local Code and are up to date.

APPENDIX A Summary of key assurance areas and how these link to the Local Code of Governance

Source of Assurance	Assurance Given
<p>1) That the council has put in place policies and procedures to guide/advise services on the Governance area. For example; a Risk Management Policy and toolkit.</p> <p>2) That Services are compliant and are meeting defined organisational requirements. Corporate Oversight Functions have insight into how well activities are consistently being carried out across the organisation, against set expectations, policy or regulatory considerations.</p> <p>3) Statutory officers' opinions over the governance of the authority (to include Head of Paid Service, Section 151 Officer, Monitoring Officer, Chief Audit Executive, and other statutory positions such as Data Protection Officer, Health and Safety Office and Designated Safeguarding Lead Officer).</p> <p>The second line of assurance is more objective.</p> <p>How assurances are obtained, and the frequency will vary depending on the level of risk and previous assurance ratings:</p> <p>1) For elements of the framework which received full assurance in the previous year and, in the main remain static and are subject to limited change (low risk), confirmation that arrangements remain in place will be obtained annually from the relevant Corporate Oversight Function.</p> <p>2) Specific assurances will be obtained in relation to higher risk areas, and areas subject to reduced assurance in the previous year.</p>	<ul style="list-style-type: none"> ▪ Partially Compliant = Corporate Oversight Function can give adequate assurance that policies and processes have been put in place and cover the majority of the requirements of the Local Code. Some minor improvements may be required. ▪ Limited = Corporate Oversight Function can only give limited assurance. Policies and processes may be considered to be insufficiently robust, ineffective, or not up to date. ▪ No assurance = Corporate Oversight Function are unable to provide assurance. Policies and processes are absent or not well designed or inconsistently applied in all key areas. <p>Where the level of assurance is 'Partially' or "Limited / None", Corporate Assurers are required to identify actions they will take to increase the level of assurance. These elements will be highlighted to the Corporate Governance and Performance Board Group for noting.</p> <p>Element 2/3 = Compliance.</p> <ul style="list-style-type: none"> ▪ Fully Compliant= Corporate Oversight Function / Statutory Officers can give substantial assurance that policies and processes are working effectively across the council. ▪ Partially Compliant = Corporate Oversight Function / Statutory Officers can give adequate assurance of compliance, there may be some lapses of compliance across the council, but not significant. ▪ Limited = Corporate Oversight Function/ Statutory Officers can give only limited assurance of compliance. There are significant lapses of compliance across the council which represent a risk to the council effectively meeting its objectives. ▪ No assurance = Corporate Oversight Function/ Statutory Officers are unable to provide assurance. Key controls are absent or not well designed or inconsistently applied in all key areas and required outcomes are not clearly defined and are consistently not met. <p>Where the level of assurance is 'Partially' or "Limited / None", this will be escalated to the Corporate Governance and Performance Board Group for action.</p>

APPENDIX A Summary of key assurance areas and how these link to the Local Code of Governance

<p>Third line role:</p> <p>Internal Audit – provides independent and objective opinion/assurance on service delivery arrangements, management of risks, design and operation of controls, performance, and governance arrangements.</p> <p>Internal Audit’s work is scheduled on a risk assessment annually, and as such, may not cover all the areas requiring assurance in any one year. However, they are likely to cover all areas during a three year cycle.</p> <p>Internal Audit will place reliance on the first and second lines, to enable it to direct resources most effectively on areas of highest risk or where there are gaps or weaknesses in other assurance arrangements.</p> <p>The council may take assurance from other independent assurance providers operating in the third line, such as those provided by independent regulators, peer reviews.</p> <p>The external auditors are an additional line of assurance, sitting outside the internal assurance framework.</p> <p>This type of assurance is perceived as independent and objective.</p>	<p>Red – Amber – Green rating indicating the level of assurance that is given by Internal Audit (based on the levels currently used in the internal audit reports):</p> <ul style="list-style-type: none"> ▪ Red = Limited or No assurance ▪ Amber = Adequate assurance ▪ Green = Substantial assurance <p>This assessment is based on the outcome of the Internal Audit work.</p> <p>Issues arising from Internal Audit assurance work will be included on the quarterly governance assurance reports to the Corporate Governance and Performance Board.</p>

5 Key Governance Areas requiring Assurance

- 5.1 There are a number of key systems, processes and policies within the council that provide a body of evidence required to support the continuous assessment of the effectiveness of the council's Governance Arrangements.
- 5.2 The council's Assurance Framework is structured to provide evidence to underpin the assessment of our Governance arrangements which support the production of the Annual Governance Statement.
- 5.3 Appendix A provides a summary of the key assurance areas and how these link to the Code of Governance. A more detailed document is maintained by the Risk and Governance service of the key assurance areas and the council's corporate risks and priorities as set out in the Corporate Plan.

6 Reporting Assurance

General Reporting

- 6.1 Assurance providers under the three lines are required to provide assurances at defined frequencies, which will be informed based on the governance area, risk and the level of assurance required. This will be dictated by an assessment of the risk and the processes in place that are reflected in the most recent Annual Governance Statement.
- 6.2 Assurances will be reported to the Corporate Governance and Performance Board. These will form the basis of the Chief Audit Executive opinion on the governance, risk and control environment and the Annual Governance Statement.
- 6.3 A key component of reporting includes regular assurance reports to the organisation's Audit and Risk Committee.

Annual Governance Statement

- 6.4 The Annual Governance Statement is a key feature of the council's annual reporting and Accounts. It covers the organisation's corporate governance, risk management and internal control arrangements. The AGS incorporates an evaluation on how well the arrangements have operated in practice, based on the on-going assessment process detailed within this Framework.

Alternative Delivery Arrangements

- 6.5 Similar and proportionate oversight and assurance reporting arrangements should also be put in place in respect of services outsourced to external suppliers, trading partnerships, shared service arrangements and arm's length bodies.
- 6.6 Such arrangements are the responsibility of the contracting manager.
